Introduction to Supplementary Estimates

Purpose

The purpose of Supplementary Estimates is to present to Parliament information on the Government of Canada's spending requirements which were not sufficiently developed in time for inclusion in the Main Estimates¹. This information directly supports an Appropriation Bill².

General Information

Supplementary Estimates provide detailed information on items not sufficiently developed in time for inclusion in the Main Estimates, including proposed spending initiatives announced in the Minister of Finance's Budget.

Supplementary Estimates are tabled in Parliament approximately one month in advance of the related Appropriation Bill. This period is intended to provide Standing Committees of Parliament with sufficient time to review proposed spending prior to the introduction of the Bill.

Supplementary Estimates also provide an update on significant changes to expenditure forecasts of major statutory items and seek Parliamentary approval for such items as: transfers of money between votes; debt deletion; loan guarantees; new or increased grants; and changes to vote wording.

Supplementary Estimates spending is consistent with the planned spending framework established in the Minister of Finance's most recent Budget and/or Economic Update.

<u>Budgetary Expenditures</u>	<u>(\$ millions)</u>
Economic and Fiscal Update – November 2003.....	178,250
2003-2004 Main Estimates.....	173,258
Supplementary Estimates (A), 2003-2004.....	5,486
Supplementary Estimates (B), 2003-2004.....	8,306
Adjustments:	
Expenditures charged to prior years.....	(5,725)
Impact of accrual accounting.....	(1,271)
Other adjustments.....	(1,804)

Normally there are two Supplementary Estimates documents published each year. Each document is identified alphabetically (A, B, C, etc.). The first Supplementary Estimates document is tabled in early November and the final document in early March. Depending on government spending priorities, more than two Supplementary Estimates may be tabled in any given fiscal year.

¹ Main Estimates are the annual expenditure requirement for the Government of Canada.

² Parliament's approval of an Appropriation Bill provides the necessary authority for the Government of Canada to spend monies from the Consolidated Revenue Fund (CRF). The Government of Canada uses these funds to carry out its programs and services.

Introduction to Supplementary Estimates

Structural Information

The Supplementary Estimates document is laid out in three distinct sections:

- 1) *Introduction to Supplementary Estimates;*
- 2) *Summary Tables;* and
- 3) *Detail by Department, Agency and Crown Corporation.*

Introduction to Supplementary Estimates

This section provides general information on the purpose of Supplementary Estimates, including the frequency and timing of the documents.

Summary Tables

This section provides summary information in table and text format. There are eight summary tables, which offer different types of analysis.

- 1) Summary of these Supplementary Estimates
- 2) Summary of Estimates to Date for 2003-2004
- 3) Summary of Changes to Appropriations
- 4) Proposed Schedule to the Appropriation Bill
- 5) Statutory Items in these Supplementary Estimates
- 6) Treasury Board Contingencies Vote Items included in these Supplementary Estimates
- 7) Horizontal Items included in these Supplementary Estimates
- 8) Major Changes in these Supplementary Estimates

1. Summary of these Supplementary Estimates

This table identifies Budgetary³ and Non-Budgetary⁴ Supplementary Estimates by department, agency and Crown corporation, and by type of Parliamentary authority (annual Vote and Statutory requirements).

The first two columns "Previous Estimates" are funds accumulated through Main Estimates and/or any previous Supplementary Estimates

The next five columns "These Supplementary Estimates" are the current requirements. These requirements are split into two categories Voted⁵ and Statutory⁶.

³ Budgetary expenditures encompass the cost of servicing the public debt; operating and capital expenditures; transfer payments and subsidies to other levels of government, organisations and individuals; and payments to Crown corporations and separate legal entities

⁴ Non-budgetary expenditures (loans, investments and advances) are outlays that represent changes in the composition of the financial assets of the Government of Canada

⁵ Voted requirements are those for which the government must seek Parliamentary approval through an **Appropriation Act**. For additional information on votes and vote wording see the Proposed Schedule to the Appropriation Bill table (page 25).

⁶ Statutory authorities are those which Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is included in the Supplementary Estimates for information only.

Introduction to Supplementary Estimates

The last two columns "Total Estimates to Date" provide the reader with an update of total Budgetary and Non-Budgetary requirements.

This table also includes the forecast of expenditures associated with Consolidated Specified Purpose Accounts. The transactions associated with these accounts are reported as part of budgetary expenditures in the Public Accounts of Canada and forecast expenditures are included in the Minister of Finance's Budget. While there are in excess of 30 Consolidated Specified Purpose Accounts in the Accounts of Canada, the Employment Insurance Account provides for almost the total value of the consolidation entry. A complete listing of these 30-plus accounts and a summary of the transactions associated with each is included in the Public Accounts of Canada.

2. Summary of Estimates to Date for 2003-2004

This table displays the type of Estimates used to obtain funding. It also provides a breakdown of funding first by Budgetary and Non-Budgetary requirements and then by Vote and Statutory requirements.

3. Summary of Changes to Appropriations

This table displays all voted information in Ministry order.

The first column "Vote Number" indicates the last time the Vote was increased. A Vote number accompanied by a letter indicates which of the Supplementary Estimates was used to augment the Vote. A Vote number without an alpha suffix indicates that it received funding through Main Estimates.

The second column "Previous Estimates" displays the total of funds appropriated through Main Estimates and/or any other previous Supplementary Estimates.

The third and fourth columns "These Supplementary Estimates" are the current requirements. These requirements are split into two categories: Transfers⁷ and New Appropriation⁸.

The final column "Current Estimates" provides the reader with an update of an organisation's total voted requirements.

4. Proposed Schedule to the Appropriation Bill

This table provides the reader with an advance look at what the schedule portion of the Appropriation Bill will look like. As previously indicated Supplementary Estimates directly supports the Bill. This table provides a list of vote numbers, vote wording and the requested funds that will be proposed to Parliament for approval.

A number of the vote items shown in the schedule are known as "S1 items". One-dollar items are generally used to seek authority in three different situations:

- To transfer monies between votes by using existing funds available within the organisation.
- To finance new or increased grants by using existing funds available within the organisation, and
- To seek Parliamentary authority for a limited number of legislative and/or special authorities that are permitted in Estimates.

⁷ Supplementary Estimates provide government organisations with an opportunity to realign their internal financing requirements by transferring monies between votes.

⁸ The column "New Appropriation" displays (by vote) an organisation's current funding requirement requested through these Supplementary Estimates.

Introduction to Supplementary Estimates

Once the Appropriation Bill is approved, the vote wordings become the governing conditions under which these expenditures may be made. As a result, the following kinds of Votes can appear in Supplementary Estimates.

- a) *Program Expenditures Votes* – This type of Vote is used when there is no requirement for either a separate “capital expenditures” Vote or a “grants and contributions” Vote because neither equals or exceeds \$5 million. In this case, all program expenditures are charged to the one Vote.
- b) *Operating Expenditures Votes* – This type of Vote is used when there is a requirement for either a “capital expenditures” Vote or a “grants and contributions” Vote or both; that is, when expenditures of either type equal or exceed \$5 million.
- c) *Capital Expenditures Votes* – This type of Vote is used when the capital expenditures for a program equal or exceed \$5 million. Expenditure items in a “capital expenditures” Vote would include items expected to exceed \$10,000 for the acquisition of land, buildings and works (Standard Object 08), as well as the acquisition of machinery and equipment (Standard Object 09), or for purposes of constructing or creating assets, where a department expects to draw upon its own labour and materials, or employs consultants or other services or goods (Standard objects 01 to 09). Different threshold limits may be applied for different capital expenditure classes at the departmental level.
- d) *Grants and Contributions Votes* – This type of Vote is used when the grants and contributions expenditures in a program equal or exceed \$5 million. It should be noted that the inclusion of a grant, contribution or other transfer payment item in Supplementary Estimates imposes no requirement to make a payment, nor does it give a prospective recipient any right to the funds. It should also be noted that in the vote wording, the meaning of the word “contributions” is considered to include “other transfer payments” because of the similar characteristics of each.
- e) *Non-Budgetary Votes* – This type of Vote, identified by the letter “L”, provides authority for spending in the form of loans or advances to, and investments in, Crown Corporations; and loans or advances for specific purposes to other governments, international organisations or persons or corporations in the private sector.
- f) *Special Votes: Crown Corporation Deficits and Separate Legal Entities* – Where it is necessary to appropriate funds for a payment to a Crown corporation or for the expenditures of a legal entity that is part of a larger program, a separate Vote is established. A legal entity for these purposes is defined as a unit of government operating under an Act of Parliament and responsible directly to a Minister.
- g) *Special Votes: Treasury Board Centrally Financed Votes* – To support the Treasury Board in performing its statutory responsibilities for managing the government's financial, human and materiel resources, a number of special authorities are required and these are outlined below.
 - (i) *Government Contingencies Vote* – This Vote supplements other appropriations to provide the Government with the flexibility to meet unforeseen expenditures until Parliamentary approval can be obtained and to meet additional payroll costs such as severance pay and parental benefits which are not provided for in departmental estimates.
 - (ii) *Government-Wide Initiatives Vote* – This Vote supplements other appropriations in support of the implementation of strategic management initiatives in the public service of Canada.

Introduction to Supplementary Estimates

- (iii) Public Service Insurance Vote – This Vote provides for the payment of the employer's share of health, income maintenance and life insurance premiums; for payments to or in respect of provincial health insurance plans; provincial payroll taxes; pension, benefit and insurance plans for employees engaged locally outside Canada; and to return to certain employees their share of the unemployment insurance premium reduction.

5. Statutory Items in these Supplementary Estimates

This table provides Parliament with an update on significant changes to expenditure forecasts of major statutory items. Statutory items are those which Parliament has approved through other legislation that sets out both the purpose of the expenditures and the terms and conditions under which they may be made. Statutory spending is displayed in the Supplementary Estimates for information only.

6. Treasury Board Contingencies Vote Items included in these Supplementary Estimates

This summary table provides a comprehensive list of organisations receiving Treasury Board Contingencies Vote (TB Vote 5) funding.

TB Vote 5 provides the Government with the flexibility to meet miscellaneous, minor and unforeseen expenditures and to meet any additional payroll costs such as severance pay and parental benefits.

There are two types of TB Vote 5 funding: permanent and temporary. Permanent funding is provided for payroll shortfalls such as severance pay and parental benefits, which cannot be predetermined. Temporary funding is provided for miscellaneous, minor and unforeseen expenditures, which were not provided for in the Main Estimates. Once Parliament approves the *Appropriation Bill* and the Governor General provides Royal Assent, temporary TB Vote 5 funding is reimbursed.

In order for Treasury Board to approve access to TB Vote 5, there are eight criteria that a department must meet:

- 1) As the authority for payments out of the contingencies fund is contained in the TB Vote 5 wording, all such payments must be fully consistent with that wording itself.
- 2) As a general rule, permanent charges will not be made to the Vote for requirements other than payroll shortfalls or awards under the *Public Service Inventions Act*. All other advances from the Contingencies Vote should be considered temporary advances to be covered by items included in subsequent Supplementary Estimates and reimbursed when the associated appropriation act is passed.
- 3) When cash advances are requested to meet a financial requirement, the Treasury Board must be assured that the payment is within the legal mandate of the department and that there is a valid cash requirement that must be met before Supplementary Estimates are approved.
- 4) When making a transfer to provide authority for a payment, the Treasury Board must be satisfied that there is valid and sufficient reason why the payment must be made before normal parliamentary approval is received. If the payment could reasonably be deferred until Supplementary Estimates are tabled and Parliamentary authority granted via an appropriation act, the contingency funding should not be provided to grant such authority.
- 5) Sufficient funds must be available within Treasury Board Vote 5.

Introduction to Supplementary Estimates

- 6) The department's existing appropriated authority must be insufficient to cover existing requirements and those of the new initiative (excluding grant items) until the end of the current Supply period.
- 7) There must be a sense of urgency related to the initiative such that the expenditure must be made prior to Parliament's approval of the item in an appropriation act.
- 8) There must be a valid, legally incorporated recipient in existence to whom the grant is to be paid.

7. Horizontal Items included in these Supplementary Estimates

This table provides a summary list of horizontal items displayed in these Supplementary Estimates.

8. Major Changes in these Supplementary Estimates

This table is divided into two sections:

- 1) Changes to the Government's organisation and structure; and
- 2) Changes to votes and vote wordings.

The first section reports on reorganisations to the structure of the Government of Canada. The second section reports on new votes and the inclusion, modification or deletion of vote wordings.

Detail by Department, Agency and Crown Corporation

Each organisation is divided into five distinct sections:

- 1) Vote Section;
- 2) Explanation of Requirement Section;
- 3) If applicable, an Objects of Expenditure Section;
- 4) If applicable, a New Major Capital Projects Section; and
- 5) If applicable, a Transfer Payments Section.

1. Vote Section

This section displays Vote and/or Statutory information such as:

- the wording of the vote or the statutory item;
- the previous Estimates amount – Main Estimates plus any prior Supplementary Estimates funding;
- transfers between votes – used to realign internal financing;
- new funding requests; and
- the new vote or statutory total.

2. Explanation of Requirement Section

This section provides a basic explanation about individual items or initiatives being funded.

Introduction to Supplementary Estimates

3. Objects of Expenditure Section

This section provides a breakdown of the proposed expenditures by standard object. All departments, agencies and Crown Corporations including those that use revolving funds, must charge their expenditures for purchases to standard objects 01 to 12. Standard objects are the highest levels of object classification used for Parliamentary and executive purposes and are reported in the Estimates and the Public Accounts.

4. New Major Capital Projects Section

This section provides a listing of new major capital projects not shown in previous Estimates, which have a total estimated cost of \$1 million or more. The information is presented by business line and by province (from East to West), and provides total Estimates costs and the amount expected to be spent during the current fiscal year.

5. Transfer Payments Section

This table provides a listing of transfer payments by business line.

A transfer payment is a grant, contribution or other payment made for the purpose of furthering an organisation's objectives but for which no goods or services are received.

Grants, contributions and other transfer payments differ in several respects:

- a) contributions are conditional payments and subject to audit whereas grants are not;
- b) contributions require an arrangement between the recipient and the donor identifying the terms and conditions governing their payment while grants do not;
- c) other transfer payments are payments based on legislation or an arrangement which normally includes a formula or schedule of payments as one element used to determine the annual amount; and
- d) the wording used in the Estimates to describe a grant has a legislative character, while that used for contributions and other transfer payments is informational.

Notes: The Previous Estimates includes both Voted and Statutory items.
The Previous Estimates amount includes funds for Canada Customs and Revenue Agency and Parks Canada, which were appropriated in 2002-2003 and will be spent in 2003-2004.

Bracketed figures in these Supplementary Estimates are decreases

VOTE NUMBERS

An item being supplemented in these Supplementary Estimates bears the same Vote number used for the item in previous Estimates for this year. Vote numbers appearing for the first time this year are underlined. All Vote numbers bear the suffix "b" to identify the Vote with these Supplementary Estimates (B).

Reinvestment of royalties from intellectual property

(Since 1993 departments and agencies have been authorized to receive, through Supplementary Estimates, an annual appropriation equal to all revenues received from the licensing of Crown-owned intellectual property which the department or agency remitted to the Consolidated Revenue Fund in the previous fiscal year. For example in 2002-2003, Fisheries and Oceans generated revenues through licensing the reproduction of navigational charts and other hydrographic publications, while National Defence generated revenues through the licensing of technologies such as high-resolution radar, electronic warfare battlefield simulator, and ship structural analysis software.)

Major Changes in these Supplementary Estimates

Changes to the Government's organization and structure

There are no structural or organizational changes reflected in these Supplementary Estimates.

Changes to votes and vote wordings

The following new votes have been added:

Citizenship and Immigration – Department

Vote 2b – Pursuant to section 25(2) of the *Financial Administration Act*, to write-off from the Accounts of Canada 2,390 debts due to Her Majesty in Right of Canada amounting to \$786,385 related to Immigration loans issued pursuant to section 88 of the *Immigration and Refugee Protection Act*. To authorize the transfer of \$786,384 from Citizenship and Immigration Vote 5, *Appropriation Act No. 2, 2003-2004* for the purposes of this Vote.

Finance – Department – Economic, Social and Financial Policies Program

Vote 16b – Pursuant to Section 29 of the *Financial Administration Act*, to authorize the Minister on behalf of Her Majesty in Right of Canada to guarantee the holders of mortgages insured by the Mortgage Insurance Company of Canada and GE Capital Mortgage Insurance Company (Canada) payment of not more than 90% of their net claims in the event of insolvency or liquidation of the Mortgage Insurance Company of Canada and GE Capital Mortgage Insurance Company (Canada) subject to the limitation that the aggregate outstanding principal amount of all mortgages covered by the guarantee shall not exceed \$100,000,000,000 at any time; and to repeal Vote 26c, *Appropriation Act No. 3, 1994-95*.

Human Resources Development – Department

Vote 6b – Human Resources Development – Pursuant to Section 25 of the *Financial Administration Act*, payment to reimburse the Government Annuity Account in respect of 330 overpayments made from the Account and interest due, amounting in the aggregate to \$57,663.63.

Indian Affairs and Northern Development – Department – Indian and Inuit Affairs Program

Vote 6b – Pursuant to Section 24.1 of the *Financial Administration Act*, to forgive the certain debts and obligations due to Her Majesty in Right of Canada amounting to:

- (a) \$96,460 representing the principal of 2 accounts owed by 2 debtors arising from direct loans made from Loans to Native Claimants, established by Indian Affairs and Northern Development, Vote L22a, *Appropriation Act No. 4, 1975*;
- (b) \$28,548 representing the amounts owed by 5 debtors arising from the administration of trust funds pursuant to the *Indian Act*, R.S. 1985, c.I-5, and
- (c) \$1,000 representing the principal of 1 account owed by 1 debtor arising from direct loans made from the Off-Reserve Housing Fund Account, established by Indian Affairs and Northern Development, Vote L51a, *Appropriation Act No. 9, 1966*.

Major Changes in these Supplementary Estimates

Transport – Canada Mortgage and Housing Corporation

Vote 46b – To increase from \$250,000,000,000 to \$300,000,000,000 the aggregate outstanding amount of all insured loans by Canada Mortgage and Housing Corporation, pursuant to paragraph 11(b) of the *National Housing Act*.

Treasury Board Secretariat

Vote 21b – Payment to the Canadian Wheat Board pursuant to subsection 7(3) of the *Canadian Wheat Board Act* for losses sustained in the 2002-2003 wheat pool.

The following new vote wording (underscored) has been added:

Foreign Affairs and International Trade – Canadian International Development Agency

Vote L35b – Payment not to exceed US\$2,827,383 to the African Development Bank, notwithstanding that the payment may exceed the equivalent in Canadian dollars estimated at \$4,440,000 on September 30, 2002, and the issuance and payments of non-interest bearing, non-negotiable demand notes in an amount not to exceed CDN (\$985,100 + \$125,000) \$1,110,100 in accordance with the International Development (Financial Institutions) Assistance Act, for the purpose of capital subscriptions in International Financial Institutions.

The following new statutory items have been added:

Agriculture and Agri-Food – Department

Statutory – Contributions in support of Business Risk Management Programs under the Agriculture Policy Framework

Statutory – Contributions to a Transition to Future Risk Management Programming

Statutory – Contributions in support of the Bovine Spongiform Encephalopathy (BSE) Recovery Program

Statutory – Payments in connection with the *Farm Income Protection Act* – Province-Based Programs

Environment – Department

Statutory – Canada Foundation for Sustainable Development Technology

Statutory – Canadian Foundation for Climate and Atmospheric Sciences

Finance – Department – Federal-Provincial Transfers Program

Statutory – 2003 Canada Health and Social Transfer Supplement Trust

Statutory – The Diagnostic Medical Equipment Trust

Statutory – Health Reform Transfer (Part V.1 – *Federal-Provincial Fiscal Arrangements Act*)

Statutory – Provincial Personal Income Tax Revenue Guarantee Program

Major Changes in these Supplementary Estimates

Industry – Department

Statutory – Loan guarantees pursuant to paragraph 14(1)(b) of the *Department of Industry Act*

Natural Resources – Department

Statutory – Newfoundland Fiscal Equalization Offset Payments

Statutory – Canada Foundation For Sustainable Development Technology
